

Close Enough - Thomas Hauenstein

Sit back in your zone of comfort
where nothing ever happens everything feels numb - mhhhh
No way to cheat on this, when all you get is so bored
of your own bad assumptions and your state of mind

Can't you see - it's all but over
when constant change is all that I could give
Pushing further, getting closer - but never close enough for me

Towards a truth I could relieve,
towards a truth I could believe

Take a deep look at the inside
with all its evil ways and insecurities
Feel the need to pull it straight an try to get it all right
while you get the idea of another you

Can't you see - it's all but over
when constant change is all that we could live
Pushing further, getting closer - but never close enough for me

Towards a truth I could relieve,
towards a truth I could believe

Can't you see - it's all but over - mhhhhh
when constant change is all that we could live
Pushing further, getting closer - but never close enough for me

Towards a truth I could relieve
Towards a truth I could believe

Towards a truth I could relieve
Towards a truth we could believe

Towards a truth I could relieve
Towards a truth we could believe

Towards the truth, the truth, the truth!
